

CellClutch®

Scratch Protection Tool Covers

User-Friendly Design

Skip the complexity of heat wraps. Designed for convenience, covers allow for easy fitment and removal without additional tools, saving you time and effort.

Superior Material Quality

100% Silicone-free. Helps prevent paint defects and adhesion issues, reducing costly rework and production delays.

Comprehensive Scratch Protection

Safeguards both your tools and the objects you work on from scratches and damage, extending the lifespan of the tool, saving you money on replacements and repairs.

Freedom to Operate

Protective ridge provides enhanced protection around sensitive parts, such as buttons.

Manufactured, Not Printed

Not 3D printed, guaranteeing a consistent and reliable build quality.
